-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 1, 3 and 4 (both in part), drawn to a method for identifying a compound capable of modulating the activity of the DLG5 protein.
  - II. Claims 2, 3 and 4 (both in part), and 5-7, drawn to a method for identifying potential anti-IBD therapeutic compounds comprising contacting an assay system capable of detecting the effect of a test compound against expression level of DLG5.
  - III. Claims 8 and 9, drawn to a method of preparing a pharmaceutical composition comprising a compound useful for treatment of IBD.
  - IV. Claim 10, drawn to a method for the diagnosis of IBD or determining susceptibility to develop IBD.
2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I is considered to be a method for identifying a compound capable of modulating the activity of the DLG5 protein.

The special technical feature of Group II is considered to be a method for identifying potential anti-IBD therapeutic compounds comprising contacting an assay system capable of detecting the effect of a test compound against expression level of DLG5.

The special technical feature of Group III is considered to be a method of preparing a pharmaceutical composition comprising a compound useful for treatment of IBD.

The special technical feature of Group IV is considered to be a method for the diagnosis of IBD or determining susceptibility to develop IBD.

Accordingly, Groups I-IV are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept. Thus, unity of invention is lacking and restriction is appropriate.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (l).
